ISTITUTO NOBILE

The **Istituto Nobile Aviation College,** a joint technical institute (Transport and Logistics Technological Sector with Aircraft Operation), has been training young students in the aeronautical field since 1999.

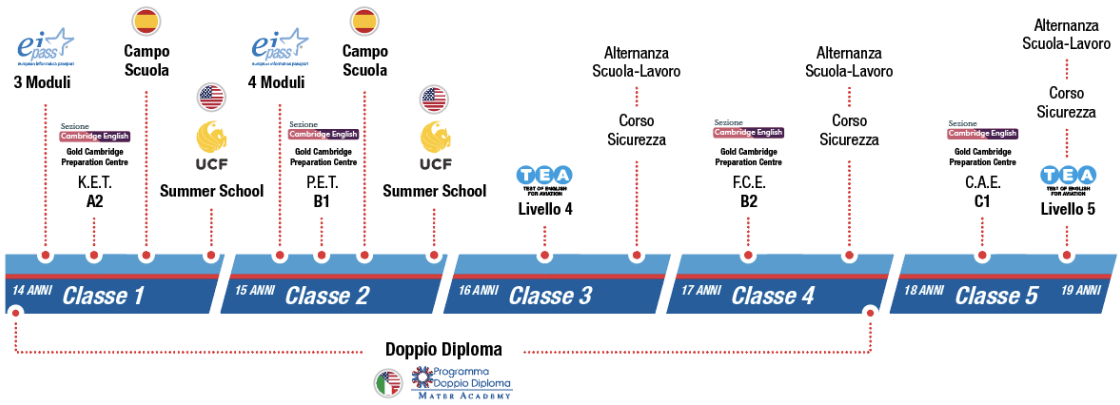

The **Istituto Nobile Middle School** is a private bilingual middle school; offers a linguistic and technological path with computer, coding and robotics laboratories.

The school, recognized by the MIUR, is also a cutting-edge international training center for future **pilots and aircraft maintainers**. The pilot training locations for acquiring flight licenses (scalar path) are based in Florida (USA), Malaga (SP) and Ireland (IE) where it is possible to follow a very engaging and professional full immersion training. The offices are equipped with multimedia classrooms and latest generation **flight simulators** such as **B737NG and A320F**.

The young people who graduate from the College can continue their career in Civil Aviation, undertake a military career, work in the aeronautical sector, or continue their university studies in various fields, especially considering the broad scientific preparation. The high school course is divided into 5 years starting from the age of 13, while the Middle school course lasts 3 years starting from the age of 11. The training is structured to allow the student to acquire transversal skills in each discipline. **The school offers bilingual training** to naturally learn English in class in different subjects with the **CLIL methodology and Cambridge Certifications**. College students can also acquire the **American Double Diploma** to access foreign universities.
Qualified teachers and tutors support the children throughout their training path, supporting them in their various needs.

The modern, technological and international environment offers children a truly unique and exclusive atmosphere where learning becomes simple and stimulating, as well as sharing our values: Respect for the rules, Integration, Friendship.

The College training plan

- *Flight simulators* B737NG e A320F
- *Headquarters for language certifications (Cambridge A2, B1, B2, C1, C2) e TEA*
- *IT certification headquarters (EIPASS)*
