Your funds are secured in a segregated account and grow largely free of tax

**Flexible Access**

Wide range of lump sum, flexible drawdown and Annuity options available

## What do we mean by "Sustainable Investment"

In 1987, the United Nations defined sustainability as "meeting the needs of the present without compromising the ability of future generations to meet their own needs". Or as Sir David Attenborough put it, "If you want to know if something is sustainable just ask yourself, can we do this over and over again forever?".

Sustainable investment means that we need to keep three things in mind at once. Social progress, the environment and economic development - or people, planet and profit.

UN Sustainable Development Goals

Invest in Positive Change

Positive Long term financial performance

Empowering Communities

## Today's global challenges need sustainable investing

Prosperous and Healthy People | Innovation for sustainability | Social Inclusion and Empowerment | Sustainable Food and Agriculture | Sustainable Mobility and Infrastructure | Renewable Resources | Circular Economy
