Little Genius International is a **private international alternative school** that aims to provide high quality education to children from 2 to 11 years old, offering them an education designed to emphasize and encourage critical analysis, creative thinking, opportunity, and freedom of thought, while initiating or improving English language skills in children at any level.

The school is housed in a unique "class A" **bio-architecture building** in Italy; it is also located in the same area where there are important **centers of excellence** to national and international **research** (Bank of Italy, CNR, ESA-ESRIN, INFN, ENEA), the optimal location with respect to services, highways, trains, GRA etc.

Little Genius International is recognized among the best Benefit Corporations in the world, which stands out for its positive impact towards society and the environment. Our school (kindergarten, elementary and middle school) offers the **Cambridge International School** certified program and the Italian National program; it also applies an **educational method called ICE®** (Infinte Child Evolution) specifically and exclusively for generations of digital natives, with excellent academic results.
