

PHOTOGRAPHY BASICS

with Matilde Damele

Basics of photography theory and practice

Theory classes 1 hour each **on Tuesdays @ ROOM 021 BLD E FAO**

Practice 1&1/2 hours on **Saturdays** Location TBA

7 classes

Class 1	Feb 18	origins of photography & Aperture @ROOM 021 Bld E FAO 5:30pm
Class 2	March 1	Practice Location TBA 11 am
Class 3	March 4	Shutter speed& Iso @ ROOM 021 Bld E FAO 5:30pm
Class 4	March 15	Practice Location TBA 11am
Class 5	March 18	Exposure and Focus @ ROOM 021 Bld E FAO 5:30pm
Class 6	March 29	Practice Location TBA 11am
Class 7	April 1	Composition and Digital Formats @ ROOM 021 Bld E FAO 5:30pm

During the course we go through the key elements of technical photography; from Aperture to Shutter speed, Exposure, Composition, Digital Formats
We also practice outside what we learnt in class and we review the images together every other week.

The participants will need to have a camera that allows them to use its manual functions. They will also bring a pen/flash drive to class to download and discuss the photos taken. The images can also be sent via we transfer.

A power point with the lesson material will be sent weekly to all participants

By the end of the course the students will have knowledge of:

How to expose the camera correctly

The different uses of lenses

Good composition and sequencing

Creative exposure and shutter speed
